

The Public Lecture Series sponsored by the St. Andrew Counseling Center seeks to broaden the knowledge base for professionals and families as we all grow in recovery and wholeness. The lecture series brings together practitioners, the church and the larger community for this purpose. St. Andrew is cooperating with *The Meadows* in Wickenburg, Arizona, and the *Hazelden Foundation* in Center City, Minnesota, to bring nationally recognized speakers to address issues important to our community.

The Meadows is a multi-disorder facility specializing in the treatment of trauma and addiction. The Meadows' clinical experts reach beyond single-level treatment of addictions, behavioral disorders and psychological conditions to diagnose and treat the underlying problems.

Hazelden Foundation, a nonprofit organization founded in 1949, pioneered the model of care for alcoholism, drug addiction and related diseases that is now the most widely used in the world. Today, with more than 50 years of experience, Hazelden is an international provider of treatment, recovery, research, training and education, offering programs, services and publications for individuals, families and communities affected by chemical dependency.
