

Habitat Construction Restrictions for Teenage Volunteers

18 years of age or older can be on the roof

16-17 years of age can be on a ladder

14-15 years of age will have feet on the ground. They will be brought into the build once the house is “in the dry” for painting, dry wall, trim, landscaping, insulation, lower level siding work, etc.

Under 14 are used for landscaping, tools and materials management, supplying/serving meals or snacks to volunteer crews, stocking the house with supplies for the new homeowner, house dedications, off site construction projects, etc.
